**ET Docket No. 03-104**

**To: The Commission**

**COMMENTS OF COREY M. DAVIS,  
FULL MEMBER OF ARRL, THE NATIONAL ASSOCIATION FOR AMATEUR RADIO  
(WWW.ARRL.ORG)**

I have been a amateur radio operator for 2 years. This technology has many questions that need to be answered satisfactorily before a hasty implementation causes obvious interference and degradation to licensed radio services.

While the technology is a promising answer to distribution of Broadband Internet access to people, the consequences out way the benefits as the specification stands now.

I respectfully urge you not to implement the system as there are at current many other viable and inexpensive options such as DSL, cable modem that have proven themselves harmonious with existing licensed radio services.

Respectfully submitted,

Corey M. Davis  
Amateur Radio Operator, K0AWN
